

24 January 1961

NOTES FROM WEEKLY ACTIVITY REPORTS #3

1. From A&E Staff: The following is a report of the number of assessments performed by the A&E Staff for the year 1960 (January to December).

<u>Intensives</u>		
Covert	114	
Overt	<u>116</u>	
TOTAL		230
<u>Partials</u>		
Covert	72	
Overt	<u>92</u>	
TOTAL		164
<u>Standards</u>		
TOTAL		<u>1,869</u>
GRAND TOTAL		2,263

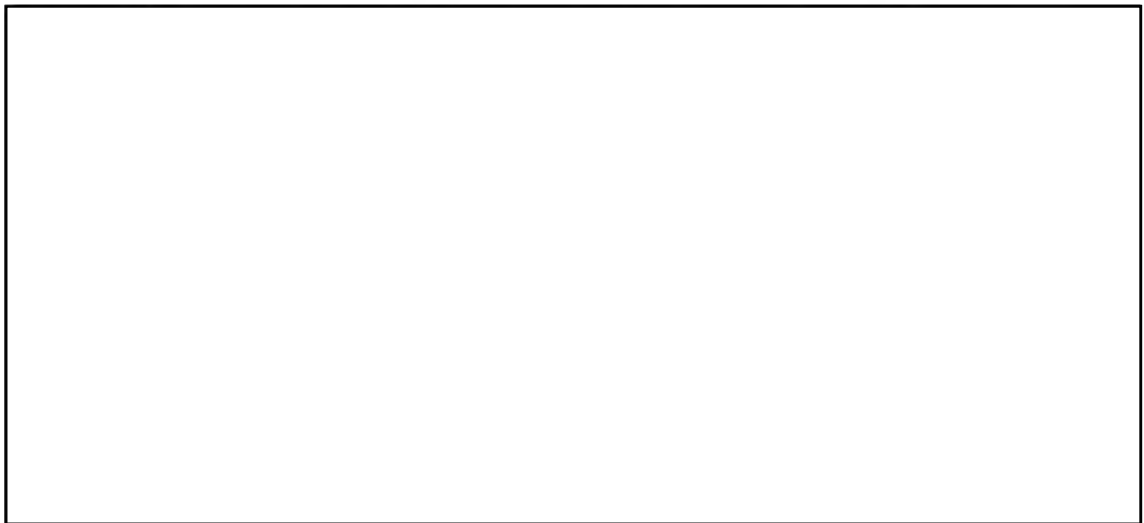

The intensives are a full two-day assessment and the partials include anything from a two-hour to a one-day assessment. This represents a considerable increase over the previous year. The exact figures for Calendar Year 1959 are not available at present since our past records are in terms of fiscal year. However, the rate of increase can be judged somewhat by the figures for Fiscal Year 1960 which were as follows: Intensives, 177; Partials, 109; Standards, 1529. The major increases are accounted for by our support of the WH program and the increased number of JOT's being brought on board.

2. From Chief, Orientation Faculty: Forty-three USIB visitors attended the Intelligence Products Exhibit on 12 January, the smallest crowd in some time. Only 1/3 of those on the Air Force list actually showed up. This was apparently due in part to an emergency which arose in AECIN in the Pentagon.

During 1960, the Orientation Faculty ran six Intelligence Orientation Courses with a total enrollment of 322 students. Five special courses were also given, including JOT Orientation and Intelligence Review for a total of 154 students, bringing the grand total to 476 students enrolled in scheduled courses.

~~SECRET~~

This figure compares with 424 students enrolled in courses during 1959, a net increase in 1960 of about 11%. This increase in student load has been accomplished with a 40% reduction in professional staff and a 50% reduction in clerical assistance.
